## Objective

---

To utilize my skills in React, Node.js, TypeScript, MongoDB, PostgreSQL, and Docker to develop robust full-stack applications and deliver high-quality solutions in modern tech-driven organizations.

## Technologies

---

**Languages:** Typescript, JavaScript, Python, SQL

**Frameworks:** NextJs, Hono, ReactJs, ExpressJs, Tailwind

**Database:** MongoDB, PostgresSQL

**DevOps Tools:** Docker, AWS

## Experience

---

**Technical Development Intern**, Innate Gamma Private Limited, Lucknow April 2025 – Present

- Integrated i18next to support multilingual UI with dynamic key-based fallback translation
- Created a Credit Score Calculator using React, Express.js, and Zod, with data storage and retrieval via MongoDB
- Implemented IMAP integration to extract structured interview data (interviewer, interviewee, time, meeting link) from incoming emails
- Built a full-featured Candidate Management Dashboard enabling candidates to register, upload CVs, take exams, and submit responses
- Developed an Admin Dashboard with role-based authentication and access control, streamlining candidate evaluation workflows

## Projects

---

**Scriblix -A Blogging Website**

[github.com/heyavanindra/Scriblix](https://github.com/heyavanindra/Scriblix)

- Developed a blogging website where a User can post, read and delete blogs
- Designed a responsive UI using React and TypeScript for seamless UX
- Used Zod with TypeScript for robust data validation
- Deployed serverless backend with Hono and Cloudflare Workers
- Managed PostgreSQL database efficiently using Prisma ORM
- Optimized app for performance, scalability, and accessibility

**WhisperBox - Anonymous Message App**

[github.com/heyavanindra/whisperBox](https://github.com/heyavanindra/whisperBox)

- Developed a platform for anonymous messaging with toggleable privacy settings
- Created a responsive, user-friendly UI using Tailwind CSS
- Leveraged Next.js for server-side rendering and TypeScript for type safety
- Managed secure user data and messages with MongoDB
- Prioritized privacy and seamless user experience

## Education

---

**University of Lucknow,**  
BCA in Computer Science

Sept 2022 – June 2025
